

Directions for Measuring your Rope "Peg" Bed for a Foam Mattress

Our FOAM is custom cut to fit your Peg or Rope Bed. Made of medium density gray foam. We will allow enough room for bedding to be tucked into the top and bottom of your bed. Our foam mattress is just the foam. These are designed to be inserted into our Ticking Mattress Bag and are sold separate.

- 1) Measure the (OUTSIDE) dimensions of your rope peg bed from Left Side Rail to Right Side Rail.
- 2) Measure from the inside of the Head Board POST to the inside of the Foot Board POST.
